

Offshore / Oil & Gas Multi-Product Capability

Brown McFarlane is a UK based Steel Stockholder with one of the widest ranges of Carbon, Stainless, Duplex and Super Duplex Steel available ex stock.

Traditionally Brown McFarlane is associated with plate supply ex mill and ex stock in both the UK and International markets. Recently Brown McFarlane has invested in the skills and expertise to deliver a multi-product offering covering, amongst others, the Oil and Gas and Petrochemical industries.

We are now able to bundle project based packages of material in order to satisfy our customers who require a Global solution to their steel needs. By combining the strengths of the existing Export department and this new capability we are able to provide a wider range of options for your project needs.

We therefore have the experience, combined with the logistical capability and Project Management skills in order to deliver a bespoke service to End Users in the Oil and Gas arena.

A wide range of grades and products are available including, but not limited to, Carbon Steel Plates, Structural Sections

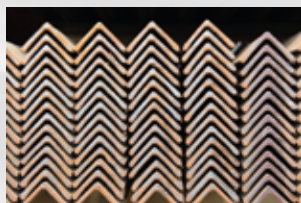

(BS4's as well as Euronorms and ASTM Wide Flange Beams), Angles, Channel, Round Bar, Seamless Tubulars, SAW Tubulars as well as Hollow Sections, Grating and Bulb Flats.

Allied to this capability we are able to draw upon Brown McFarlane's extensive range of profiling facilities comprising Gas, Plasma, Laser, Waterjet and the ability to cut multi axis weld preparations into our plates. Shotblasting and priming is another service we regularly offer to meet our client's needs as well as other added value processes.

We have a long track record of supply to the Fabrication and Global E.P.C community and fully understand the requirements in this area for quality documentation and Project Management support.

Brown McFarlane are fully ISO 9001, 14001 and 18001 compliant and grades can be supplied as required with certification to EN 10204 3.2 with third party accreditation to Lloyds, BV, ABS, DNV etc etc

Whether your requirements are for an Offshore platform, FPSO, Jack Up or indeed a Petrochemical plant we are here to assist.

Plates & Tubulars - Typical Specifications

EN10225	API
S355G2+N	
S355G3+N	
S355G5+M	
S355G6+M	
S355G7+M/N	2H/W Gr 50/50T
S355G8+M/N	2H/W Gr 50/50T
S355G9+M/N	
S355G10+M/N	
S420G1+Q/M	2Y/W Gr 60
S420G2+Q/M	2Y/W Gr 60
S460G1+Q/M	2Y/W Gr 60
S460G2+Q/M	2Y/W Gr 60

Structural Products - Typical Specifications

EN10225	API
S355G1+N	
S355G4+N	
S355G11/+M/N	2H/W Gr 50/50T
S355G12/+M/N	2H/W Gr 50/50T
S420G3/+M	2Y/W Gr 60
S420G4/+M	2Y/W Gr 60
S460G3/+M	2Y/W Gr 60
S460G4/+M	2Y/W Gr 60
S355 JR/J0/J2/K2	
S355ML/NL	

*Norsok grades available on request.

* Full range of shipbuilding grades also available on request acc to LRS/DNV/ABS

Ship Building Grades

EN10225	Grade	Minimum Thickness (mm)	Maximum Thickness (mm)
Lloyds Register	Grade A	5	50
Lloyds Register	AH36	5	50
Lloyds Register	DH36	5	50
