

Our Customers...

Brown McFarlane has a broad customer base supplying steel to a wide range of industries, some of which are listed below. Our in-house experience and knowledge enable us to be a solution provider and focus our attention on the needs of our customers. Whatever market you operate in we can provide you with products and services to satisfy your most demanding requirement, with confidence in our reliability and capability.

	PRODUCTS	SERVICES
	PETROCHEMICAL STAINLESS DUPLEX SUPER DUPLEX CarElso® HIC PREMIUM + PRESSURE VESSEL BOILER	460 YIELD CHROME MOLYBDENUM
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING DISHED ENDS TANKS SHOT BLASTING & PAINTING CLAD PLATE
	ENERGY BOILER PRESSURE VESSEL CHROME MOLYBDENUM STRUCTURAL	HIGH YIELD STAINLESS
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING WELD PREPARATIONS ROLLING WELDING
	OIL & GAS STAINLESS DUPLEX SUPER DUPLEX CarElso® HIC PREMIUM + PRESSURE VESSEL	HIGH YIELD QUENCHED & TEMPERED
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING MATERIAL TESTING
	MINING & QUARRYING QUENCHED & TEMPERED ABRASION RESISTANT HIGH YIELD STRUCTURAL CRC 60	RECYCLING & RECLAMATION
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING BENDING LINER KITS WEAR PARTS CUTTING EDGES
	RENEWABLES HIGH YIELD STRUCTURAL 460 YIELD	
		PROFILING GAS & HIGH DEFINITION PLASMA WELD PREPARATIONS ROLLING
	DEFENCE ARMOUR PLATE QUENCHED & TEMPERED ABRASION RESISTANT	
		LASER & WATER JET CUTTING BENDING MACHINING
	OFFSHORE STAINLESS DUPLEX SUPER DUPLEX HIC 460 YIELD	HIGH YIELD QUENCH & TEMPERED STRUCTURAL OFFSHORE/MARINE SPECIALIST GRADES
		PROFILING GAS & HIGH DEFINITION PLASMA MATERIAL TESTING PLATE ETCHING
	GENERAL ENGINEERING STAINLESS DUPLEX SUPER DUPLEX 460 YIELD HIGH YIELD QUENCH & TEMPERED STRUCTURAL	BOILER WEAR PLATE WORK HARDENING
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING SHOT BLASTING & PAINTING ROLLING WELD PREP MATERIAL TESTING PLATE ETCHING
	NUCLEAR STAINLESS DUPLEX SUPER DUPLEX 460 YIELD HIGH YIELD QUENCH & TEMPERED	STRUCTURAL CHROME MOLYBDENUM BOILER
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING SHOT BLASTING & PAINTING ROLLING WELD PREP MATERIAL TESTING PLATE ETCHING
	CIVIL ENGINEERING & CONSTRUCTION STAINLESS 460 YIELD HIGH YIELD QUENCH & TEMPERED ABRASION RESISTANT	STRUCTURAL STEEL CRC60 WORK HARDENING WEATHERING STEEL
		PROFILING GAS & HIGH DEFINITION PLASMA LASER & WATER JET CUTTING DRILLING SHOT BLASTING & PAINTING MATERIAL TESTING

Our History...

Over 125 years of Brown McFarlane

The Vanguard of Innovation

Since its foundation in 1889 Brown McFarlane has been at the forefront of industrial innovation, initially supporting shipbuilding industries in supply of ships fittings, metal and steel plate, to emerge as the premier independent supplier of an impressively diverse range of high specification steel grades with market leading processing facilities.

Having established a glowing reputation for its range of Boiler, Pressure Vessel and Structural grades in the 1970's and 1980's the company progressively expanded its portfolio to its current imposing levels. With stocks of Abrasion Resistant, Ultra High Yield, Offshore, Chrome Molybdenum and HIC Resistant carbon steel and Stainless, Duplex and Super Duplex Quarto plate, Brown McFarlane can offer the widest range of grades and sizes within the United Kingdom. Offering stock widths up to 4000mm, lengths up to 14000mm, thickness up to 300mm and a policy of supplying exactly what our customers require, we are the obvious first port of call for all quality steel plate users.

Here at Brown McFarlane we like to stress the quality aspect of our service offering. By purchasing from the elite of Western European mills we ensure that the highest standards are maintained throughout the supply chain. Our close long term

relationships with these mills guarantee accurate lead times, highly competitive pricing and the ability to supply the widest range of grades and sizes available.

Of course in an increasingly demanding world market it is no longer sufficient to only offer just a basic plate product. Clients, driven by demands for greater efficiencies, require semi-finished and finished products. Within our 1 hectare processing facility in Hanley, Stoke on Trent, UK, we are constantly investing in and upgrading our range of profiling machinery. The equipment allows us to offer cut parts up to 400mm thick, 20000mm long and 5000mm wide. The introduction of Infinity Plasma Beveling or more simply, the world's leading weld preparation cutting head, gives us the capability to produce the most accurate and complex bevel configurations. Infinity is revolutionising production for many customers, especially in Storage Tank Shell Plate, Boilers, Pressure Vessels and Wind Turbine Tower segment processes.

This equipment allied to our vast stock range and regular scheduled deliveries makes Brown McFarlane the essential UK steel processor and distributor.
